experience

Carin Lab at Duke | Durham, NC | Research Assistant September 2017 - Present

Working to apply deep-learning techniques on medical imagery from Duke Hospital, advised by Dr. Lawrence Carin of the Information Initiative at Duke.

Duke University Energy Data Analytics Lab | Durham, NC | Research Fellow May 2017 - Present

Contributed to design of end-to-end machine learning pipeline, streamlining data acquisition, evaluation and conversion in Python for end goal of modeling electrification rates directly from aerial imagery; worked in a team to curate a training dataset using image processing libraries, scikit-learn, Matlab, and ArcGIS. Currently continuing research to implement deep-learning model and develop georeferenced electricity access maps for developing regions.

Duke Office of Information Technology | Durham, NC | IT Consultant September 2016 - June 2017

Worked in a team using ServiceNow CRM platform to provide tailored **software** and hardware support for all computing in the Biology department by researching technical issues, writing internal and external documentation

Duke Student Organization Finance | Durham, NC | Auditor September 2016 - Present

Analyze consumption metrics of campus organizations to help school administration **determine optimal allocation** of resources

Dallas Area Model United Nations | Dallas, TX | President & Tech Lead May 2015 - May 2016

Supervised 20 member-team to organize Model UN conference for high school students in Dallas metroplex. Managed **~\$11,000 budget**, built **web portal** and social media platform, implemented **merit-based team selection**

education

Duke University, Durham, NC - **B.S, Computer Science**, **B.S, Economics** August 2016 - May 2020

projects

Biology IT Inventory - **Web platform** and REST API built on Django, PostgreSQL to track loaner equipment inventory and users for Biology IT

HitChecker - Python/Tkinter **program** using Amazon Mechanical Turk API to allow a user to efficiently evaluate crowdsourced image annotation data

DAMUN Website - Created new conference **website** for Model UN school organization, website was awarded grant from UN Foundation of America

Web Tutorial Series - maintained **YouTube channel** of tutorials on computer software and graphic design, accumulated 185,000+ video views

skills

Software: Python, Java

Data: NumPy, SciPy, pandas, scikit-learn, matplotlib, R, Matlab, Excel, Jupyter

Web: HTML/CSS/JavaScript, Rails, Django, Flask, Node.js

General: Git, Linux

courses

Data Structures & Algorithms, Microeconomics, Computer Architecture, Linear Algebra for Computer Science, Multivariable Calculus for Economics, Energy Data Analytics Lab, Intro to Computer Science

Independent Coursework:

Lynda: Django Enthought: NumPy

recognition

University Dean's List National AP Scholar International Baccalaureate Diploma Recipient Burger King Scholar YouTube Partner 3rd Place; Microsoft Coding Competition at Duke (tied)
